

SCE ELECTRICAL INTERLOCK DEFEATER

SCE-EKDF is a key operated momentary switch with contacts normally closed.

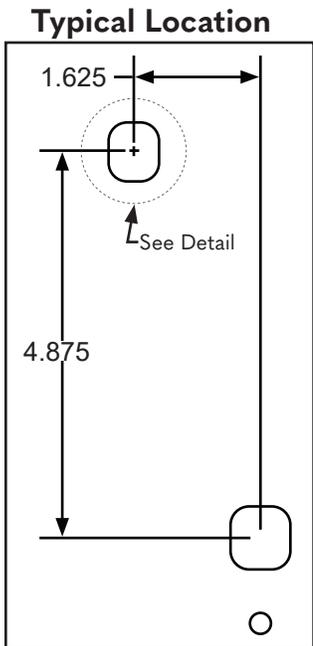

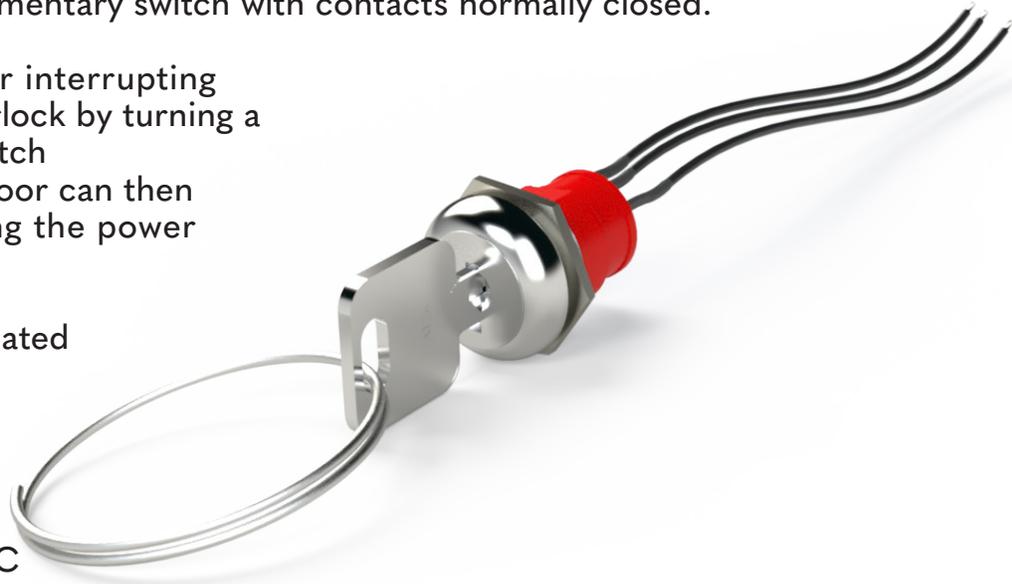

The switch provides a means for interrupting the circuit to the electrical interlock by turning a key clockwise to operate the switch (keys included). The enclosure door can then be opened without disconnecting the power source to the enclosure.

Wire lead: 6" black, 22 awg insulated wires included.

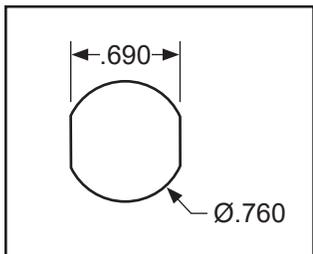

Contact rating:

Q contact material:

- 4 Amps @ 125 V AC or 28 V DC
- 2 Amps @ 250 V AC (UL/CSA)

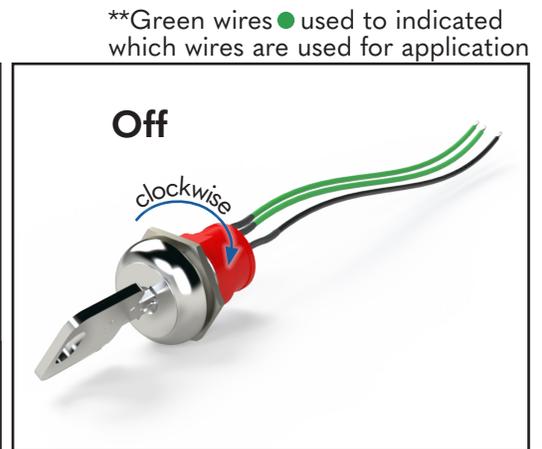

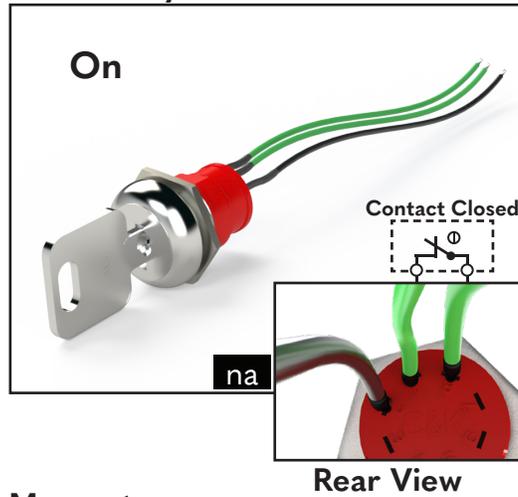

SCE-EKDF cutout shown with handle cutout for reference.
